## ABOUT ME

I am a proactive, motivated, and inspiring professional deeply engaged with both the organization and its people.

I embrace challenges as opportunities for growth, believing they fortify our approach to daily tasks. Being inherently self-taught,

I am constantly seeking to expand my knowledge and skills. Each day concludes with a commitment to learning something new.

With 10 years of experience in IT, I have honed various network management skills including troubleshooting, firewall configuration, NAS administration, domain management, Windows/Linux server administration, VPN setup, router configuration, and much more

## I WORKED WITH:
